

Summary

Spatial GIS is looking to hire GeoDeploy® Specialist Emergency Support. The GeoDeploy® Specialist Emergency Support All positions are subject to recall around the clock for emergency management operations, which may require irregular work hours, work at locations other than the official duty station, and may include duties other than those specified in the employee's official position description.

Essential Functions

- Performs activities in operational areas such as analysis and production; modeling; data management; innovation, tools development, coordination and dissemination; advocacy; remote sensing; and technology awareness.
- Applies broad knowledge of geospatial innovations, methodologies, and practices to support agency-wide analytical projects. Creates, prepares, provides, maintains, and coordinates analytic information.
- Develops program standards, doctrine, training, exercises, FEMA Qualification System requirements, and program awareness throughout the agency.
- Compiles analytical summaries and recommendations. Formulates solutions to problems (reports, correspondence).
- Determines and manages customer expectations for products. Coordinates with appropriate geospatial stakeholders to prevent duplication of effort and to promote information sharing. Briefs customers on geospatial capabilities and activities.

Desired Qualifications

- Bachelor's Degree in GIS, Geography or Computer Science
- At minimum, knowledge of ArcGIS (ArcMap, ArcCatalog, ArcToolbox, Collector, Survey123) is a requirement
- ESRI geodatabase experience
- Able to work independently with little direction and as a team player in a fast paced, challenging environment
- Able to effectively communicate both virtually and in-person (written and oral)
- Geospatial application development and web-mapping tool generation
- It is also desirable if the candidate possesses any technical geospatial knowledge, understanding and skills for web-based geospatial applications such as ESRI ArcGIS Online, FGDC metadata standards, management of digital imagery and raster products.

Position Type: Full-time. Employee

Work Location: Washington DC, and Various Emergency Support Locations

Work Conditions: Primarily an office environment, Federal, State and Local government locations and travel included Travel requirements in support of emergency operations may be extensive in nature (weeks to months), with little advance notice, and may require employees to relocate to emergency sites with physically austere and operationally challenging conditions.

Others: Finalists for the position will be subject to background check and drug testing.

To apply for the position, please submit your resume and/or cover letter to www.spatialgisservices.com/careers

Candidates will be subject to a government background investigation and must meet eligibility criteria for access to classified information. U.S. Citizenship is required.

AN EQUAL OPPORTUNITY EMPLOYER
